REPORT

Shopping Website by Abdullah Salman

INTRODUCTION:

The clothing project website consist of 7 html pages and a stylesheet. The html pages are linked with each other with links provided in the header. Each page contains a header and footer. The description and screenshots of all pages are attached below:
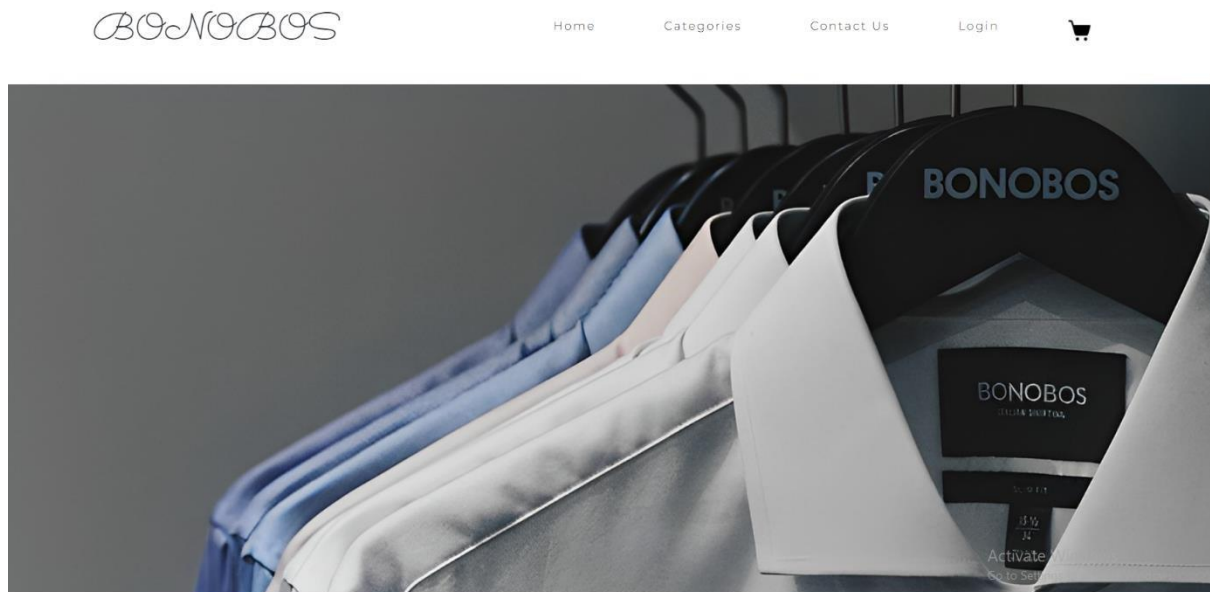

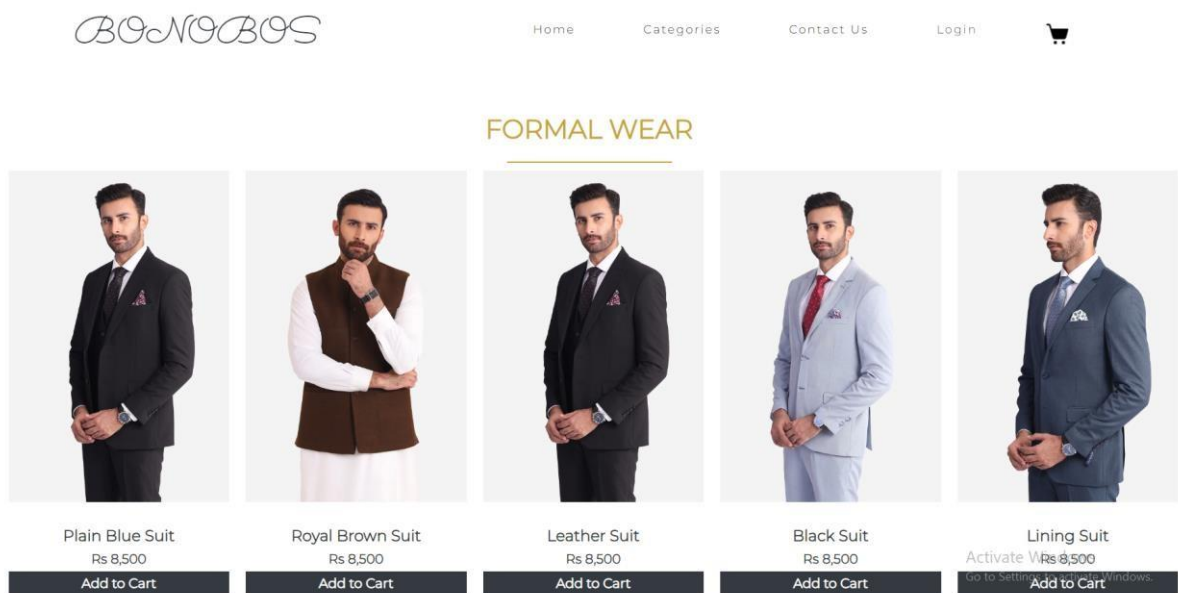

Page#1: Login/Sign Up

This page has a login and sign Up window. As Javascript is not allowed thus they cant read and save login ids. They are just static div boxes.

Page#2: Home Page

This page provides a short intro to our website with few products are also displayed on the front page just to indicate the purpose of our website.

Page#3: Categories

This page contains all of our products. The add to cart button is there is but it is static only and on clicking on the button it directs to the same page.

Page#4: Add to Cart
